- COMMUNICATION SKILLS
- TIME MANAGEMENT
- TEAMWORK

PROFILE SUMMARY

I am a college student at PHINMA University of Pangasinan with a deep passion for creating intuitive and visually engaging digital experiences. As a frontend developer, I focus on designing seamless, user-friendly interfaces that blend aesthetics with functionality.

EDUCATIONAL & CERTIFICATIONS

Tertiary: Phinma-University of Pangasinan (2025) Current School
Address: Bonuan Gueset, Dagupan City, Pangasinan
Course: Bachelor of Science Information in Technology

MAJOR PROJECTS

MEOWRIO

C# | UNITY | PISKEL

Meowrio is a 2D platformer game inspired by the classic Mario series. Players control a cat character, navigating through levels filled with obstacles.

Periodic Puzzler

NETBEANS | FIGMA | JAVA SWING

is an interactive game that makes learning the periodic table fun and engaging. Solve element-based challenges, test your chemistry knowledge, and discover fascinating facts along the way

Pet Adoption Portal

HTML | CSS | JS

It allows users to browse pets, view details, and apply for adoption. The design focuses on simplicity, usability, and accessibility, showcasing frontend development skills and UI/UX principles.

HK DUTY TRACKER

ANDROID STUDIO | MYSQL | Retrofit

A digital solution for tracking and managing student duty hours, promoting paperless scholarship compliance.

- REST APIs for consistent CRUD operations.
- Admin Dashboard on website
- Crafted an intuitive UI with Jetpack Compose for mobile and HTML/CSS for web.
- Role-based access (Students/Teachers/Department)
